Exam Preparation

ULTRASOUND

BLADDER, PELVIS OR PREGNANCY UNDER 28 WEEKS

The exam requires a full bladder. DRINK AND FINISH 1 liter (32 oz) of water 1 hour prior to appointment time. DO NOT empty bladder until after the examination.

If your bladder is not full, the examination may have to be rescheduled. You may eat your regular meals and/or snack prior to the exam.

BIOPHYSICAL PROFILE OR PREGNANCY 28 WEEKS AND OVER

This exam requires a partially full bladder. DRINK AND FINISH 500ml (16 oz) of water 45 minutes prior to appointment time.. DO NOT empty bladder until after the examination. If your bladder is not full, the examination may have to be rescheduled. Eat regular meals and/or have a snack 30 minutes prior to appointment time.

ABDOMEN

DO NOT eat, drink or consume anything by mouth 8 hours prior to examination. NO water, other liquids, chewing gum, lozenges or food 8 hours before exam. No smoking 4 hours prior to exam.

ABDOMEN AND PELVIS

DRINK AND FINISH a minimum of 1 liter (32 oz) of water 1 hour prior to appointment time. You must have a full bladder for this exam. DO NOT eat, drink or consume anything else by mouth (other than water) for 8 hours prior to examination: no other liquids, chewing gum, lozenges or food 8 hours before exam. No smoking 4 hours prior to exam.

PAIN MANAGEMENT INJECTIONS

It is not recommended that you operate a motor vehicle after your procedure. Please arrange for a driver or other transportation. For nerve root block or epidural injections, patients MUST have a driver present or other transportation. For spine injections, please avoid chewing gum or carbonated drinks the day of the exam.

MAMMOGRAPHY

DO NOT wear deodorant or body powder the day of the exam. If you have premenstrual tenderness in your breasts, it is advisable to schedule your appointment after it has subsided. Also AVOID caffeine intake beginning 2 days prior to your exam.

Please try to book your screening mammography before being vaccinated or 8 week after Covid-19 Vaccine.

BMD (BONE MINERAL DENSITOMETRY)

DO NOT take MULTIVITAMINS, CALCIUM or IRON before your exam. You may take them AFTER your exam

WALK-IN X-RAY

This exam may not be possible if there is a chance of pregnancy and may need to be deferred to a later date. It is recommended that you dress comfortable. Please avoid clothing that has zippers, snaps, buttons and/or beading near the area to be scanned.

BREAST ASSESSMENT

AT SADDLETOWN RADIOLOGY WOULD INCLUDE:

- Screening mammography with tomosynthesis (3D views) as well as intelligent 2D.
- Breast ultrasound if there is a concern, indicated due to breast density or requested by the referring doctor regardless of breast density.
- Breast Imaging that includes 3D Quorum technology utilizing Genius AI (Artificial intelligence) Analytics.
